EXPERIENCE

Viettel IDC

July 2025 – August 2026

Software Developer Intern

Distributed System, Java, Spring Boot, Python, Git, Docker, Bash, Openstack, Kafka

- Developed DBaaS backend services, implementing core actions: database instances creation, slave promotion, backup restoration, and deletion
- Developed VM backup and restore features via third-party API integration.
- Designed and implemented backend APIs for a database administration portal, supporting instance management, network configuration, and task reset operations.
- Built monitoring and configuration features for a proxy agent service, enabling real-time health tracking and dynamic system updates

Viettel Digital Talent

April 2025 – July 2025

Software Engineer Track

- Version Control System, Linux Operating System, Docker, SQL, Agile
- Web architecture, security and database in web development, web deployment and optimization
- Mini-project about load-testing system using Spring Boot, ELK Stack and Observability stack(Grafana, Prometheus)

PROJECTS

Load testing system project

May 2025 - June 2025

Java, Spring Boot, ELK Stack, MongoDB, Prometheus, Grafana, JMeter, Docker

- Load-Testing Scenario Management: Create, edit, delete, and store load-testing scenarios according to user needs
- Automated Test Execution & Management
 - Run performance tests using JMeter Engine automatically and according to preset schedules
 - Web interface to monitor, manage, and cancel test runs
- Performance Monitoring Dashboard
 - Real-time visualization of key performance metrics (latency, throughput, error rates)
 - Compare load-testing results between different sessions
- Containerized by Docker, monitoring using Prometheus and Grafana, logging using ELK Stack

Shell implementation from scratch in Go(with CodeCrafters)

January 2026 - January 2026

Go, System programming, Processes and subprocesses, Pipes, Concurrency, File I/O, CLI parsing, Redirection and pipelines

- Implemented a POSIX-like interactive shell (REPL) with parsing and quoting rules, redirection, and pipeline support
- Autocompletion with longest-common-prefix (LCP) logic and implemented history persistence with read, write and append behavior

EDUCATION

Posts and Telecommunications Institute of Technology

2022- Present

Bachelor of Engineering in Computer Science

CPA: 3.73

Certifications

- Coursera Google Data Analytics Specialization
- Google Advanced Data Analytics Specialization
- MLOPS Zoomcamp by DataTalksClub
- LLM Zoomcamp by DataTalksClub

Prize

- Consolation prize and sub prize for team solve 4 problems in only 4 tries at ICPC PTIT 2024

LANGUAGE

- **English:** TOEIC 900
- **Vietnamese:** Native
